PREFACE

This publication contains the geographic location plots of the photography on Mission G 3019, dated 4 January 1961. These plots are presented on a WAC format that has been reduced for convenience to approximately 60 percent of the original size. There is one plot sheet in this publication. Reliance was placed on high-oblique photography as the basis for plotting since cloud coverage precluded utilization of the vertical, low-oblique and mid-oblique photographs.

The flight-line index on page iii indicates the approximate track of Mission G 3019.
